Period of Fellowship: September 4- Dec 1, 2023

****RE: Fellowship Review at Kuzbari Clinic for Aesthetic Medicine, Vienna, Austria****

I am writing to express my profound gratitude and to review my fellowship at the prestigious Kuzbari Clinic for Aesthetic Medicine in Vienna, Austria. As a practicing plastic surgeon from the Philippines, this fellowship has been an invaluable phase in my professional journey, significantly enhancing my expertise in aesthetic surgery.

During my tenure, I was exposed to an array of advanced surgical techniques and practices in aesthetic breast surgery, which included both augmentation and reduction procedures. My experience in facial surgeries was extensive, encompassing rhinoplasty, blepharoplasty, face and neck lifting, and browlifts. These procedures not only honed my technical skills but also deepened my understanding of facial aesthetics.

Furthermore, my training in body contouring has been particularly enlightening, allowing me to appreciate the delicate balance between aesthetic appeal and functional integrity. The management of possible complications was a critical aspect of my learning, equipping me with the knowledge and confidence to handle unforeseen challenges during surgeries.

An essential part of my fellowship was also dedicated to nonsurgical facial rejuvenation and enhancement techniques. This included the use of fillers, Botox, and other minimally invasive procedures, which are increasingly popular and crucial in contemporary aesthetic medicine.

The expertise and mentorship offered at the Kuzbari Clinic have been exceptional. I am deeply thankful for the opportunity to learn from some of the leading figures in the field of aesthetic medicine. This experience has not only broadened my surgical skills but also refined my approach towards patient care and satisfaction.

As I return to my practice in the Philippines, I am eager to implement these advanced techniques and knowledge, enhancing the quality of care provided to my patients. I am confident that the skills and insights gained during this fellowship will be a significant contribution to my community.

Thank you for the opportunity to be a part of this enriching experience.

Sincerely,

Ana Patricia Villanueva-de Grano, MD
